### **CAREER OBJECTIVE**

---

- To always strive become an industrious, proficient and technically competent citizen.
- To consistently grow by improving my skills, knowledge and responsibilities in a relevant organization while effectively contributing to meeting the organizations key objectives.
- To constantly grow as a proficient environmental expert and champion environmentally consciousness ideas which positively contribute to the sustainability of developmental activities.
- To grow as a person and as an expert in environmental affairs and ensure the fair appreciation of environmental matters around my professional neighbors since every professional has an environment which they have to conserve.
- Giving my best to give back to society through all time hard work, motivation, creative innovation and result oriented performance.
- To be part of the body of experts who believe that a clean and healthy environment is a constitutional right of every Kenyan citizen, regardless of their status.

- To be the change that I would like to see in the world around me.

## PERSONAL AND CAREER PROFILE

---

- Determined and hardworking individual who's committed to creativity and quality output. To be an outstanding environmental professional with sound decision making capacities. To uphold high values of Honesty, be candid and full of acumen and all time ready for quality change.
- To the extent of my abilities, I've always been a focused and determined in achieving some of the environmental goals and objectives as relate to major issues in the country and contribute to the overall conservation of the environment around me. I was an active member of the environmental club since high school.
- A dynamic, result oriented, competent and resourceful person. Working in a dynamic and challenging environment which offers an opportunity for growth, creativity, learning, nurturing of skills and adding value to the organization for it to achieve its primary objectives.
